

MORNING APPEAL.

THURSDAY, JULY 17, 1879

The soap mine owned by Senator Shepherd on the South Fork of the Humboldt is to be utilized. Arrangements are making to start a factory at Elko.

The Record says that McDougal has struck a rich and large body of ore in his mine in Pennsylvania District, assays averaging \$500 per ton. It is a blue-looking chloride ore.

MILLAI'S famous picture—it has been engraved and is very common—"The Huguenot Lovers," is almost a faithful portrait of the artist's wife, the beautiful lady who was formerly Mrs. Ruskin.

The Leader says there is in the town of Eureka "a very regular and exciting poker game among certain female ton, and that it requires an old hand to walk away with the game." Wonder if the "ton" referred to are not graduated from Virginia City!

The honest man who is out of debt, and has enough to eat and drink and wear, and a place to sleep beneath a tight roof, belongs to the aristocracy. With the smile of God and a place to labor, he has nothing to desire save the crown that awaits the promoted.

SIR WILLIAM THOMPSON proposes to make Niagara Falls useful in the production of electricity, which might be conducted hundreds of miles and illuminate whole towns, while it set all their manufactories in motion. That would be setting the river on fire to some purpose.

YELLOW FEVER.—The committee appointed by the National Board of Health of the United States for the purpose of studying the yellow fever symptoms, developments and treatment in Havana, is prosecuting its work there assiduously. During the past week there were 117 deaths from yellow fever in Havana.

OUR INDIAN PRINCESS.—The Silver State says that Naches has received a letter from Princess Sarah Winnemucca who is at Fort Pinos, Washington Territory, teaching a school of sixty of her tribe. She desires Naches to send her some pine nuts. Twenty-one of the Pintes died on the Reservation last winter.

AN abundance of pure artesian water has been struck by the Southern Pacific Railroad Company at Walter's Station, Los Angeles county, California, at a depth of forty-eight feet. The pipe is forty inches in diameter in which the water rises to within eight inches of the surface. This inexhaustible supply of water is on the border of the desert where the trains meet and are supplied with water for their desert trip.

NEAR Butler, Alabama, recently, George Wilson was seated in his doorway, reading, when he heard his little two-year-old son, who was playing in the yard near by, utter a peculiar sound, as though trying to attract attention, and looking up was horrified to see the little fellow approaching him with a rattlesnake grasped in his hands. The child held the poisonous reptile about midway of its body and yet, strange to say, escaped without being bitten.

ONE of the prisoners in the Clatsop County Jail, Oregon, is a ventriloquist. He fills the beds of his fellow prisoners with squealing rats; places pigs and grunting hogs under their pillows, makes the cock crow more than thrice nightly, produces a congregation of crows, robins, etc., at pleasure, and finds more fun in it than dealing the fishermen a game on the outside for their money (for which he is held to answer), but it is not so profitable to him as his former occupation.

BONANZA CITY is located on the west bank of Yankee Fork, about ten miles from where it empties into Salmon river. Bonanza City has an elevation of between 6,500 and 7,000 feet. The climate is of the healthiest—no deaths have ever been reported anywhere in what is known as Yankee Fork District. A year ago the site of the city was clothed with a dense forest of tall and beautiful pines; today the timber, except a few shade trees is all down, and the town has a population of more than 600 people.

THE State elections this year take place as follows: Kentucky, August 4; California, September 3, State and Judicial officers, four Congressmen and Legislature; Maine, September 8, State officers and Legislature; Ohio and Iowa, October 7, State officers in part and Legislature; Maryland, Massachusetts, Minnesota, Mississippi, New Jersey, New York, Pennsylvania, Virginia and Wisconsin, November 3. Governors are elected in all the States named except Mississippi, New Jersey, Pennsylvania and Wisconsin.

IN India the struggle for life is largely with wild beasts. Though it has been carried on for centuries man has not yet triumphed in it. The government makes it a part of its functions to undertake the destruction of snakes and wild beasts, and the statistics it publishes shows how deadly is the contest with these enemies. Last year no less than 22,851 wild beasts and 127,295 snakes were destroyed at an expense of \$51,400. Nearly 17,000 persons were attacked by snakes during the year, and 3,000 persons were victims of tigers, leopards, wolves and other ferocious quadrupeds.

MISCELLANEOUS.

Several cases of sunstroke are reported in Toronto, Ontario.

The will of the Prince Imperial disposes of 920,000 francs.

The Duke of Argyll and his two daughters were privately entertained at a dinner party in New York by Cyrus W. Field.

Mr Knapp, nephew of H. A. Hale, of San Jose, Cal., is missing from Prescott, Arizona. It is believed he has been murdered.

The body of Mr. Fry, reported drowned at the salt works, near Los Angeles, was found on the 11th. His death was caused by heart disease.

Nathan Arnold, of Yankee Hill, struck a pocket of gold in Clark gulch, Tuolumne county, recently and in one week took out \$5,000.

Henry Page set out to preach Mormonism in Georgia. He had made about 100 converts and taken six wives, when he was arrested for bigamy.

The remains of Willie Henderson, drowned in the Tuolumne river, a month ago, were found last week, 70 miles from the point of drowning.

Miss Jennie Bush, of Grant's Pass, Southern Oregon, has started out as a Methodist preacher. She is 19 years of age, and is not well educated.

Near Salt Lake, on the 9th, John Timmins was struck by a rake, drawn by a runaway horse, and was so badly injured that he died the following day.

A rich strike in quartz was made at Whitman's pass, near Yankee Hill, Tuolumne county, last week, and a stampede has ensued throughout the county.

J. C. Robertson, the principal teacher at the Industrial School, San Francisco, was assaulted by five boys on Sunday afternoon and severely if not fatally injured.

Price Hickey and Frank Mayhew, two lads charged with robbing the stage on the 11th near Phenix, Arizona, have been held for a hearing on the 15th in \$3,000 each.

As a result of his inquiry, Edison has discovered the existence in this country of platinum, to such an extent as may reduce that scarce metal to the price of silver. It is to take a conspicuous part in his new light.

During the present month all the outstanding 10-40 and 5-20 United States bonds which have been called by the Secretary of the Treasury become due, and settlements will have to be made. The amount of these bonds is \$246,000.

DULL TIMES.—The Gazette has interviewed a gentleman lately from the Great East who says: "the prospects are very discouraging in White Pine, Lincoln and Nye counties. It is exceedingly dull in Belmont and Tybo, the two principal towns in Nye County. In the latter town the furnaces have been shut down. A twenty stamp mill is running and a few miners are employed by the Tybo Con. Co., but the camp is far from prosperous. Hamilton, Ward and Osceola, in White Pine County are stagnant, and mining operations are at a stand-still. Hamilton is almost entirely deserted. Cherry Creek, in the same county, is hanging on to the ragged edge of existence, living on the hope of developments that are never made. The situation in Lincoln County is nearly as bad. Nothing is doing in Pioche, and it presents the melancholy appearance of a large town with few inhabitants and still less business. Bristol is the only live town in the county, but it gives employment only to a few men. Added to the general dullness Lincoln County is saddled with an enormous debt which crushes out all enterprise. Rather a gloomy showing for the great east. It is to be hoped, however, that the situation is exaggerated."

San Francisco, July 16.—A letter from Magdalena, Sonora county, says that a brutal murder has been committed on Casitas Ranch, 20 miles south of the line. A prospector journeying southward was murdered, dragged a mile or more from the road, thrown into a gully and burned to a crisp. In a pack left on his mule were found several letters and photographs. It is thought from the letters that his name was Leopold Putz, a gentleman in fair circumstances and well respected. His photograph shows him to be a large man with a long dark mustache. It appears that he was followed from Arizona by persons in a buggy or light wagon and when overtaken by them was cut down with an ax or sabre.

Centralia, Pa., July 16.—Fire was discovered last evening issuing from Provost's colliery. A breaker which cost \$150,000 was soon in flames. The vein of coal is burning fiercely. The mine is being flooded, but with poor prospects of overcoming the flames, now endangering the working of the Continent and Hazeldell coal mines which are only divided from the burning vein by a pillar of coal 30 feet thick. Several valuable pumping engines were destroyed, together with the breaker, office and other buildings. The loss is estimated at \$200,000.

A Lowell (Mass.) telegram says: The Tennessee colonists organized formally Monday night. About 100 signified their intention to emigrate from Lowell and Haverhill to Manchester, Tennessee. About a score of them have already started and others will follow in the fall. Colonies are also forming in other portions of New England.

A TEASPOONFUL of more of powdered borax thrown into a bath-tub while bathing will communicate a velvety softness to the water, and at the same time invigorate the bather; persons troubled with nervousness or wakeful nights will find this kind of a bath a great benefit.

Twenty-five lashes are henceforward to be the maximum of flogging in the British army, and this only when a soldier is on active service. The subject lately afforded a brisk debate in the House of Commons.

The largest vineyard in the world, planted by one man, is that of Mr. H. Forward, at Floyd's Fork, Ky., which has 180 acres of grapes vines in cultivation.

PROPERTY amounting to \$100,000 was destroyed by fire, in the United States on July 4th; sixty lives were lost and 146 persons seriously injured.

A Kentucky man has a Bible 250 years old and he thinks it will last him 250 years longer. But what he saves on Bibles don't keep him in pistols.—Norristown Herald.
